OUR GIVING JOURNEY: IMPACTING LIVES

January - June

20 25

Advancing Health for Humanity

The first half of 2025 at Al Jalila Foundation was marked by continued progress and impactful initiatives that reflect our deep commitment to transforming lives through medical research, education and treatment in the UAE. This year is especially significant as it aligns with the UAE Year of the Community, a national initiative that celebrates collective responsibility, volunteerism and social contribution across the country.

As the philanthropic arm of Dubai Health, we play a vital role in advancing health for humanity. Guided by Dubai Health's four missions: Care, Learning, Discovery and Giving, we focus on delivering lasting impact to shape the future of health.

This year, we are reminded of the transformative power of generosity in driving meaningful change. I am humbled to share that we advanced impact across our core programs providing critical support through **A'awen**, facilitating care through **The Child Fund**, increasing access to medical education through our **Scholarship** program, and fostering innovation through **Research Grants**. We are also proud to be supporting the establishment of the new **Diabetes Center**, while strengthening our medical infrastructure through **The Hope Fund**. These milestones are a testament to how giving fuels progress, compassion, and meaningful impact.

These accomplishments are made possible through the incredible and continued support of our dedicated donors, strategic partners, and the ongoing engagement of our community. From institutions to individual philanthropists, each contribution has been instrumental in driving our mission forward and bringing us closer to our shared vision.

Dr. Amer Al Zarooni
CEO, Al Jalila Foundation

Measured Milestones

As we review the first half of the year, every milestone tells a story, a life transformed, a future reshaped, and a community uplifted through hope and healing. Al Jalila Foundation, has touched the lives of many by delivering impact across its four core programs. Together, these achievements stand as a testament to our dedication and the meaningful difference we continue to make.

The Power of Giving

Collaborative partnerships drive everything we do. Aligned with the UAE’s Year of Community, the spirit of generosity and unity is fueling powerful fundraising efforts that create real, lasting change. This section highlights the people and organizations whose dedication continues to power our mission and bring hope to those who need it most.

Community Engagement

Empowering Care Through Giving

Whether through fundraising events, purpose-driven campaigns or beyond, the ingenuity of our supporters continues to fuel meaningful change.

At Al Jalila Foundation, we provide vital support to ensure patients have access to life-saving care. By doing so, we advance patient care, empower communities, and improve wellbeing.

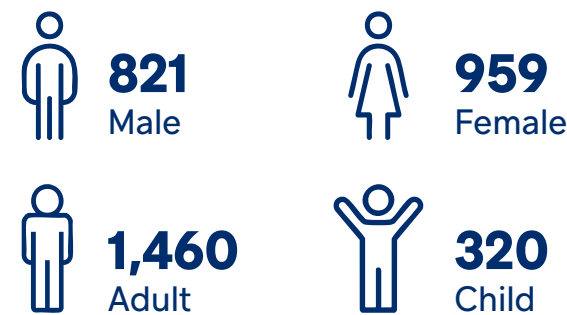

A'awen

Transforming Lives

A'awen, meaning 'support' in Arabic, is our patient treatment support program that provides medical assistance to UAE-based patients in need.

1,780

Total Beneficiaries

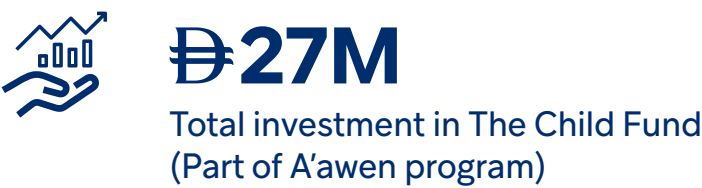

The Child Fund

Giving Hope and Healing to Children

The Child Fund is a children's charitable program that unites the community around a shared goal: providing essential medical support to children in need.

320

Total Beneficiaries

Advancing Learning Through Giving

Al Jalila Foundation empowers outstanding Emirati and UAE-based medical talents to advance national healthcare goals and create a lasting impact.

Scholarships

Students Today, Doctors Tomorrow

In the first half of 2025, we supported **24** outstanding students with scholarships spanning a broad spectrum of healthcare disciplines.

Community Engagement

Our initiatives promote wellbeing through human-centered support, providing free medical services, health education, and fostering connections that bridge the gap between healthcare and the community.

594

Total Volunteers Across all Community Engagement Programs

Majlis Al Amal

A Home Away from Home for Cancer Warriors

Majlis Al Amal, 'Hope Lounge' in Arabic, is the first of its kind community center in the UAE dedicated to female cancer patients and their wellbeing. Earlier this year, it launched the Revive & Thrive returnship program, designed to help women re-enter the workforce after cancer treatment.

165

Number of New Members

Ta'alouf

Empowering People of Determination

Ta'alouf, meaning harmony in Arabic, brings this spirit to life by uniting strategic partners, parents, educators, and the wider community to empower children of determination. Through a range of training initiatives, including the Teachers' Training Program and specialized community workshops, Ta'alouf equips parents and educators with the tools to better support and advocate for people of determination.

1,938

Total Members

Wellness on Wheels

A Mobile Clinic with the Community at Heart

Wellness on Wheels (WoW) is a community-driven mobile clinic providing healthcare services to reach as many beneficiaries as possible.

3,054

Total Beneficiaries

The Hope Fund

The Hope Fund plays a crucial role in advancing Dubai Health’s mission by supporting the development of state-of-the-art medical facilities and centers.

This vital initiative is dedicated to transforming Dubai’s healthcare landscape through strategic investments that enhance infrastructure, improve patient care, and foster innovation, ensuring accessible healthcare services that meet international standards for the community.

Hamdan Bin Rashid Cancer Hospital

Redefining Cancer Care for Patients

The Hamdan Bin Rashid Cancer Hospital will be Dubai’s first comprehensive cancer center, honoring the legacy of late Sheikh Hamdan bin Rashid Al Maktoum and his global philanthropic contributions. Designed with environmentally sustainable principles, the hospital will provide a comprehensive range of services in one location, with research and trial at the heart of the hospital’s services.

Located in Dubai Healthcare City Phase 2, the **59,000m²** facility is designed with patient wellbeing at its core. The hospital will also include **19** serene gardens for patients, their families, and the wider hospital community.

The Hamdan Bin Rashid Cancer Hospital will serve as a center of excellence for cancer treatment and research in the region, made possible by the generous donations received through Al Jalila Foundation.

The Hamdan Bin Rashid Cancer Hospital was awarded Gold in the **World Architecture News Future Projects Award 2025 – Healthcare category** for its architectural innovation and patient-centered design.
